Action of United States Government in Taking Charge of San Domingo Customs Receipts Meets with Approval.

New York, Feb. 10.—The action of the United States government in taking charge of the customs receipts of Santo Domingo is generally considered by the natives of Santo Domingo as for the best interests of the country, according to Judge John T. Abbott, who arrived here on the steamer Cherokee. Judge Abbott is the representative of the San Domingo Improvement company and since last April has been in charge of the customs house at Puerto Plata under agreement with the Dominican government.

Davis, of the troquois theater with manslaughter on account of the loss of life in the theater fire was quashed by Judge George J. Kersten. Judge Green, of Peoria, sat with Judge Kersten in the case. SENATE MAY INVESTIGATE IS A CHANGE PENDING?

Senator Kean Has a Resolution Which May Cause a Test Vote on Rate Legislation.

WOULD DELAY ACTION UNTIL FALL.

Plan Is to Have Senate Committee Investigate Thoroughly the Subject During the Summer and Then Report at the Regular or an Extra Session—Would Perfect the House Bill.

Washington, Feb. 10.—The resolution to be introduced in the senate by Mr. Kean, of New Jersey, providing that the committee on interstate commerce shall sit during the summer for the investigation of the subject of railroad rate legislation will not be offered until it has first been approved by the committee. It had been announced that the resolution would be presented in the senate Thursday. The interstate commerce committee will meet Saturday to consider the resolution.

The plan to have the senate committee investigate thoroughly the subject of rate legislation has been approved by a large number of senators of both parties. It is said that the committee will work along the lines of perfecting the Esch-Townsend bill and incorporate in that measure a provision to reach private lines.

Senator Kean, of New Jersey, has talked briefly with the president. He is of the opinion that his resolution will command a majority vote in the senate.

HOUSE PASSES RATE BILL.

Washington, Feb. 10.—The house of representatives took up freight rate legislation Thursday afternoon. The Davey bill, the democratic substitute for railroad rate legislation, was defeated, 151 yeas, 186 nays. The Esch-Townsend bill, the administrative measure, was carried by a vote of 326 to 17. The bill will now go to the senate, where the strong fight will be made against it.

BERLIN PAPER LEARNS THAT GRAND DUKE NICHOLAS IS TO SUPERSEDE KUROPATKIN.

PRESIDENT URGED TO OFFER MEDIATION

Inter-Parliamentary Union, Through Its President, Representative Bartholdt, of Missouri, Asked Mr. Roosevelt to Take Some Action Looking to Termination of Eastern War.

Berlin, Feb. 10.—The Lokal Anzeiger says it learns that Grand Duke Nicholas Nicholaievitch in a few days will be sent to Manchuria either to relieve Gen. Kuropatkin or be viceroy and that Kuropatkin will have to report to him. Prince Leopold, of Prussia, it is added, will go with him. Emperor Nicholas it is understood telegraphed an invitation to Prince Leopold. The latter intended to go to Manchuria as an observer in September last, but the Siberian railroad was then regarded as unsafe.

The report that Grand Duke Nicholas Nicholaievitch may succeed Gen. Kuropatkin or be appointed commander-in-chief of the Russian forces in the far east was first circulated in September last.

URGED TO TAKE ACTION.

Washington, Feb. 10.—President Roosevelt was urged to take action looking to the termination of the Russo-Japanese war. The request was made by the Inter-parliamentary union through the president of the organization, Representative Bartholdt, of Missouri. Dr. Bartholdt explained to the president that the consensus of opinion among the members of the union and among European parliamentarians with whom he was in correspondence, was that the president of the United States was the one man, with the possible exception of the emperor of Germany, who indicated no disposition to try to bring the war to an end, who might be listened to on the subject with favor by Russia. Dr. Bartholdt pointed out that, although Russia had let it be understood that any offer of mediation from whatever source, would be not only unwelcome, but would be regarded as an unfriendly act; such an attitude was in violation of the plain stipulations of The Hague convention, of which Russia was not only a party, but of which the czar was the moving power. The president gave Dr. Bartholdt no definite assurances beyond promising to consider the matter with Secretary Hay. It is known to be quite unlikely that this government will take any action looking to mediation until some assurances have been received from other parties to the pending conflict that such action would not be welcome.

Lincoln, Neb., Feb. 10.—The receivership case of the Lincoln Traction company was carried to the supreme court and the court ruled that the receivership should be set aside until the case can be decided upon its merits. Meanwhile the traction company must give a supersedeas bond for \$100,000 with the understanding that if the supreme court finds that the appointment of a receiver was proper the company is to pay the \$50,000 in back taxes, which has caused the trouble between the city and the company.

SENATOR BEVERIDGE of Indiana was a log roller at fifteen. He is older now but he is still in the same business.

THE ALLOWANCE of seed to each congressman has been cut down to 62,794 packages. Congress is determined to be economical no matter what it costs.

THE HOUSE, it is claimed, may pass the railroad rate bill after a two days debate. The senate is probably getting boulders ready to roll on the track.

JOHN L SULLIVAN says in a lecture that whisky is bad for the dugist. He is his own example of his belief that it does not injure the lecturer.

JOSEPH PULITZER is still looking for an ideal editor for his college of journalism. Ideal editors seem as difficult to secure as ideal cooks and ideal marriages.

POSTMASTER General Wynne is engaged in house cleaning for the next occupant, Mr. Corleyou. The task is not pleasant but Mr. Wynne has done it amiably and well.

CONGRESS is about to settle the question of polygamy for all time. It will take up divorce next week and we may yet look for race suicide law. It will not be long until expurgated editions of the Congressional record will be a necessity.

"UNCLE" JO CANNON refused to take dinner at the White House last week because Chief Justice Harlan would precede him and have had the honor of taking Mrs. Roosevelt in to dinner. We have all seen these transformations in our statesmen. Men coming sockless to congress return to their astonished communities wearing patent leather shoes and white spats. Senators without a dinner coat after a few years in Washington may be seen coming home at five o'clock in the morning in their dress suits. A statesman appearing at Cabinet receptions in high hat and tan

shoes may be met in Europe the following year traveling with a valet. There was a time within the memory of man when "Uncle Jo" considered a necktie a superfluity, and a clean shirt and vest all the dinner costume that the most fastidious could desire. But all this is changed. He is speaker of the House and he will take Mrs. Roosevelt in to dinner or he will dine somewhere else. He is going to have an automobile and will probably wear a dog skin coat and goggles and the new member who has grown fat sighted trying to catch the speaker's eye will have a harder time than ever. Uncle Jo has emerged from his cocoon. Hereafter he will be the butterfly of fashion.

BILL SENT TO COMMITTEE.

House Was Ready to Accept as it Came From Senate.

Washington, Feb. 9.—Today's developments have put an entirely different complexion upon the statehood situation. In answer to a preliminary inquiry made by Representative Moon in the house late this afternoon Speaker Cannon held that a motion to consider the statehood bill was not in order owing to the fact that the senate made provisions for certain appropriations which necessitates, under parliamentary rule, the bill being returned to the house committee on territories from which it was originally reported. In the hands of the committee it seems destined to remain, eventually to be killed in conference unless the senate agrees to recede from its New Mexico and other amendments. It is generally conceded that the house would concur by a large majority in the senate bill if allowed to vote, but the speaker's ruling precludes such a possibility. The final fate of the measure rests entirely in the hands of the house committee, which can make a report or not this session. Beveridge and other aggressive advocates of the original bill declare it shall go through as it came from the house, and a great deal of quiet, effective work has been done today with that end in view known to but few. A secret conference is to be held tonight in which a select number of master manipulators will evolve effective methods of procedure.

THROUGH AN IOWA BRIDGE

Overland Limited Into an Eighteen-Foot Ditch Between Rhodes and Melbourne.

TWO KILLED, TWENTY-FOUR INJURED.

Train Struck a Broken Rail Near the Bridge, Throwing the Engine into the Ditch. Eight Coaches Piling on Top—The Structure Was Entirely Wrecked—List of the Injured.

Des Moines, Ia., Feb. 10.—Two men are killed, 24 people injured, eight passenger cars and an engine piled in the ditch and a 200-foot bridge wrecked as the result of a broken rail on the Chicago, Milwaukee & St. Paul railroad near Melbourne Thursday.

The wrecked train was the Overland Limited No. 1, which left Chicago at 6:05 Wednesday night. There were nine coaches pulled by two engines. The broken rail was 300 feet east of a 200-foot bridge and the first engine passed over safely. The other and eight coaches following it left the track and piled into the ditch beneath the bridge, which was 18 feet high. The bridge was destroyed by the impact of the derailed cars. The observation car on the rear of the train kept the rails.

Working trains and medical aid were immediately dispatched to the scene. The injured were taken to Rhodes and Melbourne, the two points nearest the wreck on either side.

JUDGE BLODGETT DEAD.

Originated the First Law in the United States Giving Married Women Control of their Separate Property.

Chicago, Feb. 10.—Former Federal District judge Henry W. Blodgett is dead of old age at his home in Waukegan, Ill. Judge Blodgett was born in 1821 at Amherst, Mass. He was closely identified with the building of the first railway line between Chicago and Milwaukee, and later became the general attorney for the Chicago & Northwestern railway. He was a member of the sanitary commission during the civil war. While a member of the Illinois legislature Judge Blodgett, as chairman of the senate judiciary committee, originated and put through a bill giving married women control of their separate property. It was the pioneer legislation of that kind anywhere in the United States and has since been universally adopted in almost every state in the union.

In 1892 Judge Blodgett resigned from the bench to accept an appointment by President Harrison as one of the counsel for the United States in the Bering sea arbitration.

MUST GO TO PRISON.

Iowa Supreme Court Affirms Decision Which Sends Former United States Official to the Penitentiary.

Des Moines, Ia., Feb. 10.—The Iowa supreme court has affirmed the decision of the lower court which sent Deputy United States Marshal W. A. Richards, to the penitentiary for 18 years for complicity in the hold-up of Peter Sullivan and wife at Hamilton, Ia., two years ago. Richards will be taken to Fort Madison at once.

Masked men broke into the Sullivan house one night in January, 1903, and after torturing the woman by holding lighted candles under her feet compelled her to produce a sum of money which she had that day drawn from the bank. In making their escape Frank Baird, a noted crook, was shot through the body, the robbers having overlooked a shotgun standing behind the door. He was arrested and convicted and after a short time in the penitentiary named Richards as the one who planned the robbery. Richards fled to Mexico but afterwards gave himself up. He was convicted and given 18 years.

KANSAS LAWMAKERS.

Senate Passed the Bill to Prohibit Discrimination in Railroad Freight Rates Between Different Localities.

Topeka, Kan., Feb. 10.—The senate passed the bill introduced by Senator Smith, of Edwards, to prohibit discrimination of railroad freight rates between different sections, communities or localities; unfair competition and providing penalties therefor. The bill is designed to strike the Standard Oil company and to protect oil producers and consumers, but it is far reaching and affects all industries.

Senator Hayden, of Nemaha, a member of the joint stock yards committee, which conferred with a like committee of the Missouri legislature, introduced a bill defining public stock yards and their obligations to the public and regulating the charges. The prices for driving, yarding, watering and weighing cattle shall be 20 cents a head, calves 10 cents, hogs 6 cents and sheep 5 cents; there shall be only one yardage charge. Not more than 30 cents a hundred pounds above the market price shall be charged for hay or 25 cents above the market price for corn. The penalty for violation of the act is a fine of from \$100 to \$500.

As a special order of business the house took up and later passed the "administration" bill creating a board of control for the management of the state charitable institutions. The bill creates a board of three members to manage and control the industrial school for girls at Beloit, the school for the feeble minded at Winfield, the Osawatomie state hospital for the insane, the Parsons asylum, the Topeka asylum, the state reform school at Topeka, the school for the blind at Olathe, the school for the deaf and dumb at Kansas City and the other charities which may come under the control of the board.

The bill to regulate the flow, transportation and use of natural gas, commonly known as the "gas bill," met an obstruction when it came up for third reading and passage and went over.

Brady, of Lawrence, introduced a bill in the house which is designed to prevent wife desertion. The measure is very drastic.

Representative Hussey, of Sedgewick, believes that if a state oil refinery is good for the people a state brewery would also be a good thing. He introduced a bill in the house appropriating \$115,000 for the construction of a state brewery. The bill locates the brewery at Wichita. It is to manufacture beer for medical and mechanical purposes.

Dr. Glasscock, of Kansas City, introduced a resolution calling for an investigation of the advisability of establishing a state sanitarium for convalescents.

Over 26,000 names are on the petitions to the senate and house by the Kansas State Equal Suffrage association, asking for the further enfranchisement of Kansas women.

The senate Thursday by a unanimous vote passed the bill authorizing a full investigation of the state departments by a state accountant, under the direction of the governor also appropriating \$16,000 in addition to the salary of the accountant with which to carry on the investigation. Senator Miller opposed the bill, suggesting an appropriation of \$10,000. Senators Wagner and Young were willing to make it \$25,000; a compromise of \$15,000 was finally made. Senator Gettys' drainage bill also passed the senate.

ALLEN IS "RILED."

The Ottawa Editor Declares Speaker Stubbs' Charges Are Serious Enough for Investigation by the Governor.

Topeka, Kan., Feb. 10.—Speaker Stubbs in the house referring to the proposed new board of charities bill said: "The intimation has been made that the present board has been guilty of improper practices. I do not know anything about the shoe purchases, but if I say anything wrong, let us institute a court of inquiry."

Henry Allen, of Ottawa, the president of the board, said Thursday: "Gov. Hoch should investigate these charges thoroughly. Any statement serious enough for Mr. Stubbs, even in a fit of anger, to make upon the floor of the house, is serious enough to call for an investigation at the hands of the governor." Mr. Stubbs' charge that the institutions of this state are in a deplorable condition, is absolutely groundless.

The charge that we have been buying paste-board soled shoes or contract where leather soles were called for, is not true. The charge that we have harbored a drunkard as the superintendent of an institution in this city is a fabrication pure and simple.

The board has removed summarily for drunkenness two men from the service of a Topeka institution."

2,000 CARS OF GAS MAINS.

Kansas City, Kan., Feb. 10.—The big pipe line from the Kansas gas fields will be completed to this city by June 1 and by August 1 it is expected that the entire city will be supplied with natural gas. About 2,000 cars of 16-inch gas mains are now being unloaded along the right-of-way of the Santa Fe railroad from Kansas City to Chautauqua.

Where's the Connection?

Jefferson City, Mo., Feb. 10.—The Missouri house of representatives adopted a resolution, introduced by Representative J. T. Muir, of Lewis county, endorsing the action of the lower house of the Illinois legislature in expelling Representative Frank D. Comerford.

Tailors' Headquarters in Bloomington. Bloomington, Ill., Feb. 10.—Bloomington was retained as the national headquarters of the tailors. Chicago, Indianapolis and Milwaukee were candidates.
